

MISSION STATEMENT

The mission of Direct Care Pty Ltd is to improve the health status of our community by providing a comprehensive range of quality healthcare services and by investing in excellence & innovation in the delivery of best practice care models and services.

CORE VALUES

- Caring for and about people
- Innovation
- Community responsibility
- Justice/Equality - by assuring that we will aim for quality and excellence for all
- Service – by extending ourselves to care for all community members
- Stewardship – by careful use of resources to support future generations
- Dignity – The inherent worthiness of every person to receive our services
- Excellence – the only standard we strive for.

VISION

Direct Care's vision is to develop comprehensive and integrated health and supportive care services that:

- Provide treatment and care for people with disabilities, age-related conditions, illness and/or injury
- Promote physical, mental, emotional and spiritual health of our community
- Deliver programs that encourage healthy lifestyles
- Identify and minimize risk factors that lead to ill health
- Provide support and/or rehabilitation services, which minimize disability and help individuals realise their potential;[
- Promote quality education in the provision of community care;[
- Develop new services in the area of counseling, advocacy & training to support people to be empowered and grow and learn.
